

**BERLIN**

**BERLIN PARTNER**  
for Business  
and Technology

**Berlin the place to be!**

# About Berlin Partner for Business and Technology

We work on economic growth, promote business, technology, and innovation, and support companies and scientific institutions to

- ☑ launch
- ☑ innovate
- ☑ expand and
- ☑ secure

their economic future in Berlin.

We also present the advantages of the capital to companies, investors, and talents.

and Technology

# OUR FREE BUSINESS SERVICES

Berlin Partner is the prime address for companies in Berlin. We offer customized support in deciding on Berlin as a location and in implementing your projects on site.

## Location Service

With the [Business Location Package](#), we support you in finding the right location for your company in Berlin.

## Innovation Service

With the [Business Innovation Package](#), we determine your innovation needs in a personal meeting and network with suitable partners from science and business.

## Finance Service

With the [Business Financing Package](#), we support your search for suitable funding programs for your investment or innovation and provide recommendations for your application.

## Talent Service

With the [Business Talent Package](#), we support you in your search for skilled personnel as well as training, qualification, and residency issues as part of your investment project.

## International Service

With the [Business International Package](#), we support you, among other things, in the search for international cooperation partners, if necessary, also with the involvement of the Berlin business representative offices in China and the US.

## Sustainability Service

With the [Business Sustainability Package](#), we show you ways to strengthen your corporate sustainability and network with sustainable business players in Berlin.
